DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/5/2010 has been entered.

Response to Amendment

Claims 1, 5 – 21, 25 – 31 and 35 – 59 are pending in this application.

Claims 1, 21 and 31 have been amended.

Claims 2 – 4, 22 – 24 and 32 – 34 have been canceled.

Due to the amendments made, 35 U.S.C. 102(e) rejections and 35 U.S.C. 103(a) rejections of all pending claims have been withdrawn.

Response to Arguments

Applicant's arguments, see REMARKS, filed 5/5/2010, with respect to 35 U.S.C. 102(e) rejections and 35 U.S.C. 103(a) rejections have been fully considered and are persuasive. As stated above, 35 U.S.C. 102(e) rejections and 35 U.S.C. 103(a) rejections of all pending claims have been withdrawn.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1, 5 – 21, 25 – 31 and 35 – 59 are allowed.

Applicant's claimed invention is directed towards a novel approach that applies transaction and click records to assist a user in narrowing or focusing a search.

The prior art reference Dunham (U.S. Pub. No. 2003/0216930) is directed towards a cost-per-action search engine that allows advertisers to list their sites and determines the optimal placement within the search results list by using a plurality of variables including the advertiser's history of generating successful actions. While Dunham teaches utilizing purchase and click information to determine optimal placement of each listing (e.g., product, web page that contains information on the product) within a search result, it fails to disclose combination of claimed features listed below:

- user interface page comprising the first set of set of search results **and a plurality of candidate search terms** related to said first search term in accordance with **relevancy scores** calculated based in part on the sales information and click information related to the **first** search term
- at least some of the plurality of candidate search terms being **organized in accordance with brands**

• in response to a selection, by the user, of one of said plurality of potential alternative search terms, a **second set of search result** is generated for the user **using the selected potential alternative search term.**

Newly-found prior art reference Davis (U.S. Pub. No. 2001/0047354) is related to Applicant's invention in that the reference teaches the method of narrowing or focusing a search by suggesting alternative search terms to generate additional search lists. However, Davis also fails to disclose combination of claimed features, including relevancy scores calculated based in part on the sales information and click information related to the first (initial) search term, and at least some of the plurality of candidate search terms being organized in accordance with brands.

Upon thorough examination and search, it has been concluded that Applicant's independent claims 1, 21 and 31 contain allowable subject matter based on the aforementioned rationale. The novel feature of the claimed invention is its ability to **conduct search iteratively by using sales and click information of the initial search term.**

Therefore, independent claims 1, 21 and 31 are allowed.

Dependent claims 5 – 20, 25 – 30 and 35 – 59 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SANGWOO AHN whose telephone number is (571)272-5626. The examiner can normally be reached on Mon-Fri.
